

Trick-Or-Treating Safety Tips

Here are some spook-tacular safety tips to keep in mind while you're haunting the streets:

- 1. Plan Your Path:** Pick a fun and safe route with your family. Stick to places you know, and stay away from dark or spooky spots.
- 2. Costume Comfort:** Make sure your costume is comfy and easy to walk in. Bright colors or shiny bits help drivers see you better!
- 3. Glow Bright:** Add reflective tape or glow sticks to your costume or candy bag so you can shine in the dark.
- 4. Light the Way:** Carry a flashlight or use your phone's light to help you see where you're going.
- 5. Stick to the Sidewalk:** Walk on the sidewalk, not the street. If there's no sidewalk, be extra careful!
- 6. Safe Crossings:** Always use crosswalks and look both ways before crossing the street.
- 7. Candy Check:** Let a grown-up inspect your treats before you dig in. Toss any candy that looks odd or isn't wrapped.
- 8. Follow the Rules:** Stay with your grown-up or group, and never go into someone's house or car, even if they offer candy.
- 9. Don't Go Alone:** Always go trick-or-treating with a grown-up or a group of friends.
- 10. Have a Plan:** If something goes wrong or you get tired, have a plan to call for help. Bring a phone just in case!
